|   | A band of heavy rain developed from downtown Duluth to just north of Two Harbors. Nearly five and a half inches of rain fell in Duluth's Lakeside neighborhood earlier in the day. The steep hillside in Duluth helped create torrents of water that closed many streets, forced up manhole covers, and overwhelmed sanitary sewers. The rushing water washed out railroad tracks and ripped the asphalt right off the roads. Many roads and driveways along State Highway 61 between Duluth and Two Harbors were either washed out or had standing water through the evening. |   |                           |                          |                        |                         |  |  |           |
| Itasca County<br>Bigfork                    | 27   | 2100CST   |                           |                          | 0                      | 0                       |  | Hail (2.50)                            |           |
| <b>Koochiching County</b>                   |  |   |                           |                          |                        |                         |  |  |           |
| Big Falls                                   | 28 0100CST 0 0 Lightning  Lightning struck an electrical feeder line, causing a fire that destroyed a house. No dollar estimate was available, and no one was injured.   |   |                           |                          |                        |                         |  |  |           |
